

BCC

Multi-cartridge housing with V-Clamp closure

Industrial multi-cartridge housing for the filtration of non-hazardous fluids in industrial application.

BCC series are designed to fit filter elements open on both sides (DOE) available in a wide range of materials and micrometries.

V-Clamp housing closure makes maintenance easier and allow quick replacement of filter cartridges.

Main features

- Suitable for filter elements with 72 mm max. diameter
- Flow deflector for filter element protection at inlet side
- Non-hazardous fluids of group 2 PED

Materials

Housing:	316L Stainless Steel
Adjustable legs:	304L Stainless Steel
V-Clamp closure:	304L Stainless Steel
Seals:	EPDM (standard)

Interior / Exterior Surface Finish

Type Z: Pickled (Standard)

Type E: Pickled and Electropolished

Design and constructions

According to PED

Certification

Declaration of conformity and user guide.
